This newly constructed 4-bedroom, 2-bath home features a bright and functional open-concept design, thoughtfully created to maximize space and natural light. The seamless flow between the kitchen, dining, and living areas makes the home ideal for both everyday living and entertaining.

The kitchen serves as the centerpiece of the home, offering modern finishes, ample cabinetry, and a practical layout that connects effortlessly to the main living spaces. A convenient utility closet provides efficient in-home laundry access while maintaining a clean, streamlined floor plan.

The primary suite offers a private retreat with a well-appointed bathroom and comfortable closet space, while three additional bedrooms provide flexibility for family, guests, or a home office.

With no garage, the design prioritizes expanded interior living space and functionality throughout. This open-concept layout delivers comfort, simplicity, and modern new construction living in a thoughtfully designed floor plan.
