Step inside this stunning courtyard-entry home that boasts three bedrooms, two bathrooms, a vast open-concept kitchen, dining and living room. Large windows offer views over the courtyard while the home cook is treated to a center island and ample counter space in the kitchen with the option to upgrade the appliances. An incredible list of impressive upgrades and four elevation options make the Santa Cruz a home you can truly make your own. The master has a walk-in closet and a master bath, with a garden tub, or you can upgrade the master bath to a luxurious haven. One of the three bedrooms could be transformed into a study plus there's a utility room and a detached two-car garage that can be expanded into a three-car garage. Extra optional upgrades include a covered patio off the garage, a vestibule and a casita with a third bathroom and a walk-in closet.
